DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-11, and 27-32, drawn to a gripping handle, classified in class 16, subclass 430.
 - II. Claims 12-27, 33, and 34, drawn to a tool or power tool, classified in class 81, subclass 489.
 - III. Claim 35-37, drawn to a power drill, classified in class 408, subclass 124.
 - IV. Claims 38-41, drawn to power sander, classified in class 451, subclass 64.
 - V. Claim 42, drawn to power saw, classified in class 81, subclass 166.3.
2. The inventions are distinct, each from the other because of the following reasons:
3. Inventions II-V and I are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because a power tool, power drill, power sander, and power saw are all patentably distinct inventions. The subcombination has separate utility such as a grip for any handle, possibly including a luggage handle, or door handle.

Art Unit: 3676

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael J Kyle whose telephone number is 703-305-3614. The examiner can normally be reached on Monday - Friday, 8:30 am - 5:00 pm.
8. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Heather Shackelford can be reached on 703-308-2978. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
